Washington, DC 20591

May 2, 2016

Dear Industry Representative:

We are requesting your review of the Draft Advisory Circular AC 150/5370-2G; “Operational Safety on Airports during Construction”, the AC is available at the FAA Airports website: http://www.faa.gov/airports/resources/draft_advisory_circulars/ for your review and feedback. Changes are noted with vertical bars for quick identification. Your response by May 30, 2016, is appreciated. No response reflects your concurrence to the proposed draft.

Principal changes in this draft are focused on guidance for the use of temporary orange construction signs, open trenches are allowed within the Taxiway Safety Area with specific restrictions, and enhanced graphical guidance for temporary shortened runways and displaced thresholds where added. Also included for your review, concurrently, is Engineering Brief No. 93, “Guidance for the Assembly and Installation of Temporary orange construction signs”.

Please submit comments on the provided COMMENTS MATRIX. Please E-MAIL (Do not mail) the completed MATRIX to Khalil Kodsí at Khalil.Kodsi@faa.gov.

Sincerely,

Michael A. Meyers, P.E.
Deputy Manager
Airport Engineering Division
